

HERO QUEST

WIZARDS OF ZARGON

Wizards of Zargon

The adventure continues! Wizards of Zargon is an expansion set used with your original Hero Quest Game System. You must have the Game System in order to play the adventures in this booklet. Wizards of Zargon introduces two new elements to the Heroquest game. This add-on pack gives Zargon four Evil Sorcerers, each of whom have their own new spell cards which will be used against the Heroes. To make sure that the Heroes can put up an effective resistance against these awesome new spells, the pack introduces Mercenaries – warriors who will join the Heroes on their Quests for a share of the spoils.

Contents: Plastic Figures: 4 new Evil Sorcerer Figures, 12 Mercenary Figures, 24 Weapons; 24 new Chaos Spell Cards, 23 new Mercenary Cards, 9 new Wizard & Elf Spell Cards, 8 new Treasure Cards and a Cardboard Tile Sheet.

Cardboard tile sheet includes:

1 Earthquake Tile	1 Lightning Tile
4 Breached Wall Tiles	1 Cloak of Shadows Tile
4 Fireburst Tokens	6 Blocked Square Tiles
1 Magic Reference Chart	
3 Magical Barrier pieces (Stone, Fire and Ice)	

All cardboard components should be carefully removed from the cardboard sheet. The plastic figures and weapons should be removed from their runners. Discard waste cardboard and plastic. New game components are described at right and on the following pages.

Note: Some of the cardboard tiles listed above are two-sided. The front and back may be different.

Take the 12 Mercenary figures and clip a weapon to each of them by slotting the weapon into the hole on the front of each miniature as shown in figure 1.

Carefully push out the card pieces from the card sheet. Take the 3 Magical Barrier pieces and slot each of them into a plastic base as shown here.

Note: The new cardboard components are shown here and on the following pages. Next to most components is a matching Quest Map symbol. These symbols appear on each map to show you where to place components on the gameboard.

These symbols are also the exact size needed for the blank “create your own” Quest Map provided in the Game System Quest Book. All you have to do is photocopy the symbols and cut them out.

Cloak of Shadows

This tile is to be used with one of the new Wizard and Elf Spells. There is no Quest Map icon for this tile as it is used randomly during game play.

Magical Traps

Whenever a character enters a room described in the Quest Notes as containing a magical trap, Zargon must refer to the Magic Reference Chart to see the effect of that particular trap.

Magical traps cannot be found by searching. They can only be disarmed with certain spells specified on the Magic Reference Chart. Magical traps may only be activated once. As soon as a magical trap has been activated, players can move safely through that room or corridor.

8. Hiring Mercenaries

Adventurers may each hire up to four followers at any time between Quests. These followers may be from any of the four types of Mercenaries. To hire a Mercenary, a Hero must pay the initial Price to Hire which appears on the Mercenary Card. That Mercenary will then stay with and fight for that Hero until he, the Mercenary, is killed and as long as he is paid 10 Gold Coins at the end of each Quest. If he is not paid for his services, he will then leave and must be paid his full Price to Hire in order to return.

For each Mercenary a Hero hires, that player should take one Mercenary figure with the relevant weapon shown on that Mercenary Card. He should also take one Mercenary Card for each of the types he has hired. This details the statistics of each type of Mercenary. (Note: a number of spare Mercenary Cards have been provided to replace any lost or damaged cards.)

A player whose Hero is killed can choose to continue the Quest with the Hero's surviving Mercenaries. If not, he must remove the Mercenaries from the gameboard.

Example:

Thorgrin the Dwarf decides to hire a couple of Mercenaries to aid him on his Quests: one Crossbowman to shoot any targets that they cannot reach on foot and one Halberdier to act as general extra muscle. This costs Thorgrin 125 Gold Coins before he sets out on the Quest, but it will also cost him 20 Gold Coins at the end of each Quest, assuming of course that both his Mercenaries survive.

Playing Wizards of Zargon

1. New Magic

Wizards of Zargon introduces four powerful new adversaries for the Heroes. Each of these new opponents is a Sorcerer and has his own set of sorcerous spells which he may use in the same way as the Wizard and the Elf.

- Each Sorcerer has his own special set of six spells which only he may use. For example, only the Necromancer may use the Necromancer spells and only the Orc Shaman may use the Orc Shaman Spells.
- Each Sorcerer may only cast one spell in a turn, instead of attacking. Each spell may only be used once in each Quest.
- Each new Quest starts with a full set of six spells for each Sorcerer in that Quest.

2. New spells for the Heroes

There are also three new sets of spells for the Wizard and Elf: Spells of Protection, Spells of Detection and Spells of Darkness. These may be added to the existing sets of spells which the Elf and Wizard draw on, but they still only choose one and three sets of spells respectively. They may still change their spells between Quests.

3. Spell Special Effects

Several new spells have special effects which can be displayed on the board using the special counters on the card sheet. Details of each spell appear on each spell card while the general rules of effect are detailed below.

The Earthquake tile covers 6 squares, each of which counts as a pit trap except that they are all joined up. Players may move in the normal way along the bottom of the quake, but can only leave it by climbing out onto a clear square adjacent to it. Figures in the quake area may fight and cast spells as normal, but may only do so with figures inside the quake area.

If an Earthquake meets a wall, that wall is breached and a breached wall token is placed there. Any figure may move through a breached wall. If a room which has not been explored is breached, the contents should be laid out at once. If the Earthquake meets a Magical Wall, both spells are cancelled and the pieces are removed from the board.

Breached Wall Tile

6. Mercenaries

This Quest Pack contains 12 Mercenary figures, with 24 interchangeable weapons that enable you to put together the 4 different types of Mercenaries (the Scout, the Swordsman, the Crossbowman and the Halberdier.

4. Magical Barriers

Wall of Ice, Wall of Flame and Wall of Stone spells allow the caster to build a solid barrier which will appear on the board as a card piece standing on a plastic base. This barrier may be placed across two squares on the gameboard to form a solid impassable wall that will remain on the board until it is destroyed. The wall may resist an attack by rolling the number of Defend Dice shown on the specific spell card and counting the White Shields scored. If the wall takes one Body Point or more of damage, it is destroyed and the piece is removed from the board.

5. Lightning Bolt and Earthquakes

When a player casts either of these spells, he or she takes the relevant card piece and places one end in a square in front of the spell caster and then lays the piece in a straight line from there. That spell then affects anyone along that line, unless a wall blocks the way, in which case a Lightning Bolt attack will stop there, attacking only those in front of the wall.

Mercenaries are soldiers who can be hired by a Hero before a Quest begins. They will accompany any Hero on a Quest, if the Hero pays their fee. The fee for each type of Mercenary is given on the Mercenary's Card, as well as on the Mercenaries Chart in the back of this book. The gold must be paid before the Quest begins.

Such men are found in towns and cities all around the country. Men willing to follow a great Champion and fight for him as long as he will pay for their upkeep. There are four types of Mercenaries. Each has his own strengths and weaknesses and each has his own price.

7. Mercenaries in the Game

Once a player has hired any Mercenaries, he can take them with him on his next quest. Each player begins the Quest in turn by placing all his figures on the stairway tile or in any adjacent squares and then takes his turn before the next player sets up.

- On a player's turn, they move his Hero and then moves all of his Mercenaries.
- Each Mercenary may move and fight in the same way as the Heroes, using the values printed on the Mercenary Cards.
- When defending, Mercenaries count the White Shields.
- Mercenaries may open closed doors and jump over pit traps.
- Mercenaries may not search for treasure, use any equipment or Treasure Cards and only Scouts may search for and attempt to disarm traps.
- Any money given to a Mercenary may never be retrieved.

A Glimpse of Chaos

As the rain lashed down and thunder rumbled across the sky, a brief flash of lightning illuminated a be-draggled group of travelers. Their slow climb up the rocky slopes to the foreboding tower at the summit seemed to last an eternity. At last the figures escaped the storm and entered a dark hallway. As they peered into the shadows, they saw a sinister figure on a rocky throne.

A solitary traveller stepped forward from the huddled and dripping group and addressed the presence on the throne.

"My Lord Zargon, we come bearing grave tidings. We must report the failure of your plan to raise the Ogre Horde against the Empire. Once again we were routed by his accursed Champions and once again we were forced to flee."

The figure on the throne shifted and a voice like death broke the silence.

"I am aware of your failure, Festral. But as in all things I have learned from my failures. Firstly, I have learned not to underestimate the Emperor's Heroes. Secondly, I have learned not to rely on fools. I have therefore conceived a new scheme to destroy the Emperor's Heroes forever. I have chosen four Lieutenants to carry out my plan. Come forth my Lieutenants."

With that command, four silhouettes stepped from the shadows.

"Let me present Zanrath, High Mage of Sarako." An ancient bearded man wearing a pointed hat and carrying a staff topped with a crescent moon bowed down towards Festral and his retinue.

"Fanrax, the Malicious." At the mention of his name, an evil-looking man adorned with skull symbols and toying with a wickedly sharp dagger gave a sneering smile at the group.

"Boroush, the Storm Master." With a sweep of his oaken staff, a ragged and bearded figure greeted the refugees.

"And finally, Grawshak, Orc Shaman of the Northern Tribes." The last of the four Lieutenants, an Orc decorated in skins, feathers and skulls, carrying a massive totem wand growled what might have been a greeting or a curse at the party.

"I believe that these four Sorcerers will succeed where you have so miserably failed. And it is they who will punish you for your failure."

With this final word, Zargon disappeared into the shadows. From here he watched with great satisfaction as his four sorcerous Lieutenants erased all trace of Festral and his followers.

Zargon smiled. These were indeed the ones who would finally destroy the Emperor's Heroes forever.

Quest Map Guide

The Quest map symbols are color-coded to help you guide the Heroes through these Quests. Here's what the various map symbol colors mean.

Gold: This color is used to highlight traps that the Heroes can detect by searching.

Light Green: This color is used to highlight traps and other hazards that the Heroes can neither see nor detect by searching.

Dark Green: This color is used to highlight monster symbols. See the Monster Chart in the back of this book for actual symbols.

In each Quest, notes prefaced with a capital letter correspond to a matching letter location on the Quest map.

Quest 2

Crypt of the Necromancer

"Summon up your courage my Heroes, for you must journey to a most terrible place to find your next enemy, Fanrax the Malicious. He dwells in an ancient crypt that lies in the vast and nameless graveyard

this eyrie. Now you are here you must move quickly, for Boroush commands great elemental forces with which he can easily overcome unwary intruders.”

You must take advantage of this moment of weakness to assault his citadel and finally vanquish his evil Lieutenants."

NOTES:

Zargon, on your first round you must put out all of the contents of the central chamber. All 4 sorcerer figures start from the central chamber. Magical Traps

Fireburst Traps

When a player enters an empty room, place a Fireburst token in the centre of the room. This will remain in place until the beginning of the Evil Wizard Player's turn, when it will explode attacking any figures in the room with 3 attack dice. It may only be disarmed with a Tempest spell.

Hurricane Trap

This trap must be set in a corridor. Once a character passes the spot marked "x", a Hurricane will rush down from the end of the corridor marked with the trap symbol. All figures in this corridor will be forced to move back 8 spaces along the corridor or until they hit a wall or set off a trap.

Teleport Trap

Any player who finishes their move on a square marked with symbol A, will instantly be transported to the square marked with symbol B, elsewhere on the map. Landing on a symbol B square has no effect. Once a character has been teleported, he is disorientated and his turn ends at once.

Spell Special Effects

Wall of Ice, Wall of Flame or Wall of Stone

Take one of these card pieces and set it on the gameboard in a plastic base. Each remains on the gameboard until it is destroyed. Walls may be attacked in the normal way and can resist attack by rolling combat dice and counting white shields scored. A wall is destroyed if it takes one Body point.
