The Plague of Zombies

"The peaceful farmlands of the Empire have been disturbed by a growing tide of attacks by undead creatures. The source of this evil is in a series of

caves in the highlands. Now you must enter the caverns to find and destroy the source of this evil undead plague."

NOTES:

The increase in Undead activity is due to a Chaos Sorcerer known as the Deathmaster. He has learned many powerfull spells allowing him to raise and control the dead, and plans to use these to damage the food sources of the accursed Emperor's armies. The Deathmaster's power is spread throughout the caverns and therefore if any living creature (i.e not a Zombie, Skeleton or Mummy) is killed in the caves, Zargon may replace it with an active Zombie or Skeleton figure. This includes the Heroes and any Mercenaries. Any Undead which are killed remain dead.
